Conception of the OM project.

The story of Officine Mattio began in 2014, when Giovanni Monge Roffarello recognized a clear need: to create not just a bicycle, but a dynamic brand truly Made in Italy that embodies our passion for cycling.

Who we are today.

Today we look back with pride on the journey we've taken, but above all on what lies ahead. The bicycle is the ideal tool for making our dreams come true.
